

SPE125 and SPE160 both have fixed support arms and lift heights up to 5400 mm. The machines are built for horizontal transport and stacking in intensive applications that require durable high capacity trucks.

Technical Details		SPE125	SPE160
Operating type		pedestrian/stand on	pedestrian/stand on
Rated capacity	kg	1250	1600
Load centre	mm	600	600
Max. axle load drive wheel, without/with rated load	kg	390/530 ¹⁾	390/620 ¹⁾
Max. axle load castor wheel, without/with rated load	kg	600/630	640/610
Max. axle load supp.wheels, without/with rated load	kg	340/1420	410/1810
Travel speed, without/with rated load/without platform	km/h	8/7/6	8/7/6
Lift speed, without/with rated load	m/s	0.33/0.17 ²⁾	0.24/0.12 ²⁾
Lowering speed, without/with rated load	m/s	0.49/0.51 ²⁾	0.34/0.35 ²⁾
Gradient, without/with rated load	%	12/10	12/10
Service-/parking brake		1 stage electromagnetic brake	1 stage electromagnetic brake
Drive motor/Intermittent rating (S2 60')	kW	1.7	1.7
Lift motor/ Intermittent rating (S3 11%)	kW	3	3
Steering system		steering arm	steering arm
Speed control		transistor, stepless	transistor, stepless
Steering arc	°	180	180

Dimensions, mm		SPE125	SPE160
x	Back of fork to bogie wheel centre	833 ³⁾	786
y	Wheel base	1440	1440
	Drive wheel movement up/down	15/30	15/30
	Drive wheel, Powerfriction ⁴⁾	Ø 215	Ø 215

- 1) Increased axle load = +80 kg
- 2) Based on Triplex mast
- 3) Triplex mast -20 mm
- 4) Other alternatives available
- 5) Height of handle in neutral position without platform 1580 mm, in normal driving position 1040 mm.
- 6) Triplex mast +20 mm
- 7) Platform weight = +30 kg

Truck performance and dimensions are nominal and subject to tolerances.
 BT Products AB products and specifications are subject to change without notice.
 All data is based on VDI 2198.

- The truck is equipped with Powertrak drive unit configuration — a BT patent. The drive wheel pressure is constantly adjusted due to the weight of the load. The result is optimal traction and minimum steering force.
- The comfortable steering arm, with its modern design, facilitates one hand operation. The lift, lowering and driving functions are ergonomically placed on the steering arm and can be operated by finger tip force.
- The Sensi-lift function offer precise and intuitive control of the lift and lowering speeds.
- Individual driver parameters, top speed, acceleration and automatic speed reduction, to meet driver skills can be programmed via the key pad (no tool needed).
- The BT Powerdrive system provides reliability and simplicity. Can-bus technology means fewer parts and reliable transmission of data. A Pin code start up procedure offers higher operational safety by stopping unauthorised driving.
- Two different battery compartments provide the truck with excellent flexibility.

Truck features	SPE125	SPE160
BT Powerdrive System	S	S
Powertrak traction system	S	S
Controls and instrument		
Fingertip controls	S	S
Information display	S	S
Power/Electronic steering	O	O
Sensi-lift	S	S
Temporary speed reduction (turtle button)	O	O
Tiller arm steering	S	S
Driving features		
180° steering	S	S
Electronic braking system	S	S
Electronic speed control	S	S
Flip-down driver platform	S	S
Safety features		
BT Access Control	S	S
Clear-view mast	S	S
Folding sideguards	S	S
Programmable performance	S	S
Maintenance features		
Easy access for maintenance	S	S
Fault diagnosis facility	S	S
